## FUCHS CHAIN LUBE AEROSOL

Highly effective tenacious penetrant and lubricant for use on all types of chains

### Description

FUCHS CHAIN LUBE AEROSOL is a spray lubricant containing high viscosity lubricating base oil along with EP and anti-wear additives. It is one of the range of FUCHS Lubricants (UK) industrial aerosol packaged products. It is a heavy-duty lubricant designed to lubricate all chains not fitted with an oil bath or automatic lubrication system. It is suitable for use on all leaf and roller chains, lift and drive chains, conveyor chains etc.

### Application

Shake the can thoroughly before use.

Hold in an upright position, spraying directly onto the component surface from a distance of 8-12 inches.

The highly directional button ensures accurate positioning of the lubricant.

Always ensure any guarding is in place when treating moving equipment.

Re-apply as required.

### Caution

- Pressurised container
- Protect from sunlight and do not expose to temperatures exceeding 50°C
- Do not pierce or burn, even after use
- Do not spray on a naked flame, or any incandescent material

### Advantages/Benefits

- Large 500ml aerosol can
- Penetrates pins and bushes
- Reduces chain wear
- Gives excellent corrosion protection
- Reduces friction and power requirements
- Contains no CFC propellants - ozone friendly

### NOTE

Follow the safety information printed on the cans to ensure safe application.

## Notes

The information contained in this product information is based on the experience and know-how of FUCHS LUBRICANTS (UK) plc in the development and manufacturing of lubricants and represents the current state-of-the-art. The performance of our products can be influenced by a series of factors, especially the specific use, the method of application, the operational environment, component pre-treatment, possible external contamination, etc. For this reason, universally valid statements about the function of our products are not possible.

Our products must not be used in aircraft or spacecraft. Our products may be used in manufacture of components for aircraft or spacecraft if they are removed without residue from the components prior to assembly into the aircraft or spacecraft.

The information given in this product information represents general, non-binding guidelines. No warranty expressed or implied is given concerning the properties of the product or its suitability for any given application. We therefore recommend that you consult a FUCHS LUBRICANTS (UK) plc application engineer to discuss application conditions and the performance criteria of the products before the product is used. It is the responsibility of the user to test the functional suitability of the product and to use it with the corresponding care.

Our products undergo continuous improvement. We therefore retain the right to change our product program, the products, and their manufacturing processes as well as all details of our product information sheets at any time and without warning, unless otherwise provided in customer-specific agreements. With the publication of this product information, all previous editions cease to be valid. Any form of reproduction requires express prior written permission from FUCHS LUBRICANTS (UK) plc.
